## QUESTIONS AND RESPONSES TO SP0600-05-R-0507

**1. May test method ASTM D3701 and ASTM D3343, for JP5 and JP8, be used in place of ASTM D4808 and ASTM D5291 for F76 fuel product?**

Response: No, test methods ASTM D3701 and ASTM D3343 are not acceptable for testing of F76 under the contract.

**2. Why is the estimated number of samples to be tested less than the estimated number of samples to be transported for Baton Rouge?**

Response: Numbers of samples are an approximation; difference may reflect samples transported for individual tests.

**3. For required C-testing locally, vessel sampling, and tank sampling in Houston, are you requiring the winning bidder to have a facility in Houston?**

Response: Turn around time for C-testing is one hour test would need to be performed locally.

**4. If a lab cannot pick up samples locally, should shipping costs be entered under transportation even though the line item quantity is zero? Or should the price of individual analyses and test groups be inflated to reflect this price?**

Response: If the contractor provides transportation for samples, billing should be made under the appropriate transportation CLIN for that location.

**5. What is required for tank sampling and vessel sampling in Houston, TX? Please provide details of processes involved.**

Response: Tank sampling and vessel sampling is performed in accordance with standard procedures and processes for sampling. Terminal operator performs sampling and transportation to local laboratory for the Magellan terminal; the terminal also performs the type "C" testing. For the Seabrook Terminal (JPTS rail car shipments) sampling and transportation is performed by the terminal with type "C" testing being performed by local laboratory. JPTS tank is certified by Wright Patterson.

**6. If QAR requests DOT sampling containers, packaging and shipping materials, will waybills need to be provided? Should these be prepaid?**

Response: Contractor is to provide shipment service. Please execute the service in a cost effective manner.

**7. What size DOT sampling container is required or preferred?**

Response: Standard container one gallon.

**8. Please detail the contents of sampling kits.**

Response: Sample container and over-pack in accordance with DOT requirements.

**9. Will security clearance be required for any pick up locations?**

Response: Security clearances shall not be required.

**10. Will base passes be required for pick up locations?**

Response: Should not be required, however in the event it is it, it will be addressed as needed.

**11. Where is item number “1” on attachment to DD form 1707? Appears to be a page missing.**

Response: Number 1 is in Block 7 of the DD Form 1707 and #2 is continued on the Attachment to the 1707.

**12. Are the government personnel packaging samples for shipment certified HAZMAT?**

Response: Government personnel should not be packaging samples; contractors that perform service should be certified in accordance with requirements/regulations.
